

ROSEN PABALAN

DESIGNER

GREETINGS!

I am a professional graphic designer with years of work experience in creating designs for digital media.

I would like to use my eye for web and graphic design to show an already established and growing corporation what I can do for them and how I'm ready to be a team player.

I'd also like to enhance my knowledge and further develop my skills and talents in visual communication for the benefit of the company as well as my personal and professional growth.

My goal is to gain a suitable employment in the field of 2D illustration, Character Design, Graphic Design, Web Design, or any relevant position for a challenging work experience.
